Chris,

Attached are my additions to the spreadsheet and references for Letter "O" the DEQ and DLCD letter. Most of the additions and references originate from Appendix A that was attached to the State's letter. It is actually quite rich with information. Unfortunately, I am not sure the state still addresses the "Roads" issue gap i.e., monitoring and tracking legacy roads. We'll talk next week.

Have a great weekend.

Alan

Chris,

I may have some additions to the two documents I sent you earlier today. I need to dig a little more deeply into DEQ's letter so, consider what I sent you as "drafts". If I have to add more comments, I will add them to the "drafts". When I am done with the review I will indicate that the documents are final.

Sorry about this.

Alan
